

ABOUT SHUNGITE

A mineral with healing power and properties which compares to nothing else in the world, Shungite purifies energizes, balances, induces recovery and absorb electromagnetic radiation from TV's, computers etc. as well as other negative energies. Every scientist investigating shungite declares it to be miraculous.

Shungite Pyramids

Geopathogenic Radiation

Shungite pyramids provide a secure shield against harmful radiation in geopathogenic zones caused by underground streams or springs, ore deposits and geological faults. A person exposed to such a zone everyday, can experience symptoms such as apathy, headache or unexplained weakness as it weakens the immune system. Placing a pyramid near a person boosts immunity and nervous tension is released. Headache and insomnia fade away, and overall health improves.

Electromagnetic Radiation

The shungite pyramid also protects all environments from the electromagnetic radiation emitted by TV sets, computers, microwave ovens and even appliances such as refrigerators. Simply place a shungite pyramid between yourself and any of these devices. Placing the pyramid at your bedside or on you desk, harmonizes the atmosphere, resulting in a reduction of nervousness, dissatisfaction or over-excitement.

Purification

Placing coins, jewellery or other small items near a shungite pyramid, purifies them of the effects of the negative energy fields they may have collected.

Caring for your Shungite Pyramid

Every two-three weeks, place the pyramid in the open air for about an hour and its protective features will be restored. Polishing the pyramid will not affect its properties.

Energizes a room

Shungite pyramids make living space healthier over a radius of more than five metres. A shungite pyramid made in the same proportions as the ancient Cheops Pyramid in Egypt, draws negative energy from a room. After only a few hours in its presence, you will feel the space cleared of the bad energy, and your own internal energy revitalized.

Relieves Pain and Stress

A small pyramid relieves pain and speeds up healing. It will also help reduce emotional strain in all areas of life.

ABOUT SHUNGITE

Shungite Cell Phone Protection from Electromagnetic Radiation

While conducting experiments in new medical technologies, scientists at the Tula Research Institute in Russia discovered that shungite's shielding properties diminish the effects of electromagnetic radiation. Specifically, its fullerene structure makes shungite suitable as a shielding screen against the pathogenic influence of electromagnetic radiation.

Shungite 7 Directional Harmonizers

The 7 Directional Harmonizer is constructed out of six shungite pyramids and one tulikivi sphere. This sacred geometric design connects the powerful energies of the stones to the energies of the seven directions. (Above, below, south, west, north, east, and center.) The energetic fields and vortexes created by this tool circulates, clears, amplifies and purifies yourself and your environment through the alignment and balancing of the seven directions.

In this high paced world of stresses, entertainment, technology, and concrete, we have been slowly shifting our resonance away from the sacredness of our natural world. The more we lose this connection the more we spiral into dis-ease and disharmony. We must re-member to connect to the seven directions so that we can create sacred space within and around us. As we place the 7 Directional Harmonizer in our hands or in our environment we consciously attune and realign ourselves to these powerful forces of nature.

Recommended uses:

- To clear and purify toxic living or working environments.
- To amplify meditating & healing practices.
- To creating sacred space in healing rooms & bedrooms.
